Int J Gynecol Obstet, 1991, 34: 411—414
International Federation of Gynecology and Obstetrics

Subject Index

Volume 34

abnormal Papanicoloau smears, postmenopausal women, 145
abortion, Nigerian adolescents, sexual activity, contraception, 361
accessory ovary, supernumary ovary, adenocarcinoma, laparotomy, 75
acromegaly, pregnancy, pituitary apoplexy, transphenoidal approach, 71
adenocarcinoma, supernumary ovary, accessory ovary, laparotomy, 75
adenomatous hyperplasia, androgens, late-premenopausal period, 157
amniocentesis, fetal blood sampling, chorionic villi sampling, selective feticide, multiple pregnancy, 309
androgens, late-premenopausal period, adenomatous hyperplasia, 157
anomalies, uterus, renal, skeletal, ectopic, infertility, 281
antepartum/intrapartum complications, stillbirths, prenatal care, 13

birthweight, ethnic, birthweight standards, 319
birthweight standards, birthweight, ethnic, 319
breastfeeding, exclusive breastfeeding, lactation, 353

carcinoma of the cervix, lymphoreticular infiltrates, immunohistology, 179
cervical cancer, ultrasonography, renal system, 49
cervical carcinoma, knowledge, Kenyan women, 55
cervical cerclage, cervical incompetence, recurrent abortion, McDonald stitch, 325
cervical healing, cervix, colposcopy, postpartum, cervical injury, 133
cervical incompetence, cervical cerclage, recurrent abortion, McDonald stitch, 325
cervical injury, cervix, colposcopy, postpartum, cervical healing, 133
cervical intraepithelial neoplasia, cervix, colposcopic diagnosis, human papilloma virus, 139
cervix, colposcopic diagnosis, human papilloma virus, cervical intraepithelial neoplasia, 139
cervix, colposcopy, postpartum, cervical injury, cervical healing, 133
cesarean, placenta previa/accreta, hemorrhage, hysterectomy, 183
cesarean section, postcesarean infections, postoperative infections, metronidazole, prophylactic antibiotics, 217
cesarean section, previous cesarean section, trial of labor, uterine scar rupture, Tanzania, 211
chorioamniontis, premature rupture of membranes, prematurity, perinatal mortality, 35
chorionic villi sampling, amniocentesis, fetal blood sampling, selective feticide, multiple pregnancy, 309
cigarette smoking, thiocyanate, pregnancy, 65
clinical picture, extrauterine pregnancy, epidemiology, 239
colposcopic diagnosis, cervix, human papilloma virus, cervical intraepithelial neoplasia, 139
colposcopy, cervix, postpartum, cervical injury, cervical healing, 133
complications, incidence, induced illegal abortion, Nigeria, 163
condyloma acuminata, vulval warts, 347
congenital defects, pregnancy, diabetes mellitus, maternal morbidity, 205
content of MCH services, patterns of use, rural Nigeria, 331
contraception, Nigerian adolescents, sexual activity, abortion, 361
contraception services in schools, illegal induced abortion, Nigeria, school girls, liberalization of abortion law, 261

daytime glucose profile, diabetes mellitus in pregnancy, daytime mean glucose, insulin, 21
daytime mean glucose, diabetes mellitus in pregnancy, daytime glucose profile, insulin, 21
deceleration in fetal heart rate, umbilical cord compression, fetal movements, 271
diabetes mellitus, pregnancy, maternal morbidity, congenital defects, 205
diabetes mellitus in pregnancy, daytime glucose profile, daytime mean glucose, insulin, 21
Doppler, umbilical artery, growth retardation, systolic/diastolic ratio, 121
dwarfism, thanatophoric dysplasia, prenatal diagnosis, ultrasonography, short-limbed dysplasia, hydramnios, 373

ectopic, uterus, anomalies, renal, skeletal, infertility, 281
embryology, supernumerary ovary, pelvic mass, 175
endocervical curettage, microcolposcopy, preneoplastic cervical lesions, 249
endometrial biopsy, hysteroscopy, reliability, 151
endometrial protein, PP14, variation, endometrium, 257
endometrium, PP14, endometrial protein, variation, 257
epidemiology, extrauterine pregnancy, clinical picture, 239
epidural anesthesia, labor, 229
ethnic, birthweight, birthweight standards, 319
exclusive breastfeeding, breastfeeding, lactation, 353
extrauterine pregnancy, epidemiology, clinical picture, 239

female infertility, tubal blockage, hydrotubation, hysteroscopy, 61
fetal blood sampling, amniocentesis, chorionic villi sampling, selective feticide, multiple pregnancy, 309
fetal cardiac function, maternal glucose load, M-mode echocardiography, 115
fetal death, intrauterine death, multiple pregnancy, 367
fetal movements, umbilical cord compression, deceleration in fetal heart rate, 271
fetus amorphus placental teratoma, 377
fluorescein angiography, hypertensive pregnancy, retinopathy, 127
fructosamine, gestational diabetes, high-risk pregnancy, glucose tolerance, 27

genodermatosis, percutaneous ultrasound-guided fetal skin biopsy, prenatal diagnosis, 267
gestational diabetes, fructosamine, high-risk pregnancy, glucose tolerance, 27
glucose tolerance, gestational diabetes, fructosamine, high-risk pregnancy, 27
growth retardation, umbilical artery, Doppler, systolic/diastolic ratio, 121
gynecologic surgery, ureteric injury, repair, 235

hemorrhage, placenta previa/accreta, cesarean, hysterectomy, 183
high-risk pregnancy, gestational diabetes, fructosamine, glucose tolerance, 27
human papilloma virus, cervix, colposcopic diagnosis, cervical intraepithelial neoplasia, 139
hydramnios, thanatophoric dysplasia, dwarfism, prenatal diagnosis, ultrasonography, short-limbed dysplasia, 373
hydrotubation, female infertility, tubal blockage, hysteroscopy, 61
hypertension, neurofibromatosis, pre-eclamptic toxemia, perinatal mortality, 221
hypertensive pregnancy, retinopathy, fluorescein angiography, 127
hysterectomy, placenta previa/accreta, hemorrhage, cesarean, 183
hysterectomy, ruptured uterus, obstructed labor, 41
hysteroscopy, endometrial biopsy, reliability, 151
hysteroscopy, female infertility, tubal blockage, hydrotubation, 61

illegal induced abortion, Nigeria, school girls, contraception services in schools, liberalization of abortion law, 261
immunohistology, carcinoma of the cervix, lymphoreticular infiltrates, 179
incidence, induced illegal abortion, complications, Nigeria, 163
induced illegal abortion, incidence, complications, Nigeria, 163
infertility, uterus, anomalies, renal, skeletal, ectopic, 281
insulin, diabetes mellitus in pregnancy, daytime glucose profile, daytime mean glucose, 21
intrauterine death, fetal death, multiple pregnancy, 367
intrauterine pressure monitoring, manometry, labor, 315

Kenyan women, cervical carcinoma, knowledge, 55
knowledge, cervical carcinoma, Kenyan women, 55

labor, epidural anesthesia, 229
labor, manometry, intrauterine pressure monitoring, 315
lactation, breastfeeding, exclusive breastfeeding, 353
laparotomy, supernumary ovary, accessory ovary, adenocarcinoma, 75
late-premenopausal period, androgens, adenomatous hyperplasia, 157
liberalization of abortion law, illegal induced abortion, Nigeria, school girls, contraception services in schools, 261
low birthweight, preterm delivery, socioeconomic status, 1
low birthweight, preterm delivery, perinatal mortality, 107
lymphoreticular infiltrates, carcinoma of the cervix, immunohistology, 179

M-mode echocardiography, maternal glucose load, fetal cardiac function, 115
manometry, intrauterine pressure monitoring, labor, 315
maternal glucose load, fetal cardiac function, M-mode echocardiography, 115
maternal morbidity, pregnancy, diabetes mellitus, congenital defects, 205
McDonald stitch, cervical incompetence, cervical cerclage, recurrent abortion, 325
medroxyprogesterone, osteoporosis, postmenopausal, 253
medroxyprogesterone acetate, premenstrual tension, treatment, spironolactone, 243
metronidazole, postcesarean infections, postoperative infections, prophylactic antibiotics, cesarean section,
microcolposcopy, endocervical curettage, preneoplastic cervical lesions, 249
mid-trimester abortion, prostaglandin E_2 gel, 169
multiple pregnancy, amniocentesis, fetal blood sampling, chorionic villi sampling, selective feticide, 309
multiple pregnancy, fetal death, intrauterine death, 367
myoma, pregnancy, 45

neurofibromatosis, pre-eclamptic toxemia, hypertension, perinatal mortality, 221
Nigeria, illegal induced abortion, school girls, contraception services in schools, liberalization of abortion law, 261
Nigeria, incidence, induced illegal abortion, complications, 163
Nigerian adolescents, sexual activity, contraception, abortion, 361

obstructed labor, ruptured uterus, hysterectomy, 41
osteoporosis, medroxyprogesterone, postmenopausal, 253
outcome, shoulder dystocia, risk factors, prevention, 7

patterns of use, content of MCH services, rural Nigeria, 331
pelvic mass, supernumerary ovary, embryology, 175
percutaneous ultrasound-guided fetal skin biopsy, prenatal diagnosis, genodermatosis, 267
perinatal mortality, low birthweight, preterm delivery, 107
perinatal mortality, neurofibromatosis, pre-eclamptic toxemia, hypertension, 221

perinatal mortality, premature rupture of membranes, prematurity, chorioamniontis, 35
pituitary apoplexy, pregnancy, acromegaly, transphenoidal approach, 71
placental teratoma, fetus amorphus 377
placenta previa/accreta, hemorrhage, cesarean, hysterectomy, 183
postcesarean infections, postoperative infections, metronidazole, prophylactic antibiotics, cesarean section, 217
postmenopausal, osteoporosis, medroxyprogesterone, 253
postmenopausal women, abnormal Papanicoloau smears, 145
postoperative infections, postcesarean infections, metronidazole, prophylactic antibiotics, cesarean section, 217
postpartum, cervix, colposcopy, cervical injury, cervical healing, 133
PP14, endometrial protein, variation, endometrium, 257
pre-eclamptic toxemia, neurofibromatosis, hypertension, perinatal mortality, 221
pregnancy, diabetes mellitus, maternal morbidity, congenital defects, 205
pregnancy, myoma, 45
pregnancy, pituitary apoplexy, acromegaly, transphenoidal approach, 71
pregnancy, thiocyanate, cigarette smoking, 65
premature rupture of membranes, prematurity, chorioamniontis, perinatal mortality, 35
prematurity, premature rupture of membranes, chorioamniontis, perinatal mortality, 35
premenstrual tension, treatment, spironolactone, medroxyprogesterone acetate, 243
prenatal care, stillbirths, antepartum/intrapartum complications, 13
prenatal diagnosis, percutaneous ultrasound-guided fetal skin biopsy, genodermatosis, 267
prenatal diagnosis, thanatophoric dysplasia, dwarfism, ultrasonography, short-limbed dysplasia, hydramnios, 373
preneoplastic cervical lesions, microcolposcopy, endocervical curettage, 249
preterm delivery, low birthweight, socioeconomic status, 1
preterm delivery, low birthweight, perinatal mortality, 107
prevention, shoulder dystocia, risk factors, outcome, 7
previous cesarean section, cesarean section, trial of labor, uterine scar rupture, Tanzania, 211
prophylactic antibiotics, postcesarean infections, postoperative infections, metronidazole, cesarean section, 217
prostaglandin E_2 gel, mid-trimester abortion, 169

recurrent abortion, cervical incompetence, cervical cerclage, McDonald stitch, 325
reliability, hysteroscopy, endometrial biopsy, 151
renal, uterus, anomalies, skeletal, ectopic, infertility, 281
renal system, cervical cancer, ultrasonography, 49
repair, ureteric injury, gynecologic surgery, 235
retinopathy, hypertensive pregnancy, fluorescein angiography, 127
risk factors, shoulder dystocia, outcome, prevention, 7
ruptured uterus, obstructed labor, hysterectomy, 41
rural Nigeria, content of MCH services, patterns of use, 331

school girls, illegal induced abortion, Nigeria, contraception services in schools, liberalization of abortion law, 261
selective feticide, amniocentesis, fetal blood sampling, chorionic villi sampling, multiple pregnancy, 309
sexual activity, Nigerian adolescents, contraception, abortion, 361
short-limbed dysplasia, thanatophoric dysplasia, dwarfism, prenatal diagnosis, ultrasonography, hydramnios, 373
shoulder dystocia, risk factors, outcome, prevention, 7
skeletal, uterus, anomalies, renal, ectopic, infertility, 281
socioeconomic status, preterm delivery, low birthweight, 1
spironolactone, premenstrual tension, treatment, medroxyprogesterone acetate, 243
stillbirths, prenatal care, antepartum/intrapartum complications, 13
supernumary ovary, accessory ovary, adenocarcinoma, laparotomy, 75
supernumerary ovary, embryology, pelvic mass, 175
surviving child, tubal pregnancy, third trimester, 277
systolic/diastolic ratio, umbilical artery, Doppler, growth retardation, 121

Tanzania, cesarean section, previous cesarean section, trial of labor, uterine scar rupture, 211
thanatophoric dysplasia, dwarfism, prenatal diagnosis, ultrasonography, short-limbed dysplasia, hydramnios, 373
thiocyanate, pregnancy, cigarette smoking, 65
third trimester, tubal pregnancy, surviving child, 277
transphenoidal approach, pregnancy, pituitary apoplexy, acromegaly, 71
treatment, premenstrual tension, spironolactone, medroxyprogesterone acetate, 243
trial of labor, cesarean section, previous cesarean section, uterine scar rupture, Tanzania, 211
tubal blockage, female infertility, hydrotubation, hysteroscopy, 61
tubal pregnancy, third trimester, surviving child, 277

ultrasonography, cervical cancer, renal system, 49
ultrasonography, thanatophoric dysplasia, dwarfism, prenatal diagnosis, short-limbed dysplasia, hydramnios, 373
umbilical artery, Doppler, growth retardation, systolic/diastolic ratio, 121
umbilical cord compression, fetal movements, deceleration in fetal heart rate, 271
ureteric injury, gynecologic surgery, repair, 235
uterine myoelectrical activity, vagino-uterine reflex, vaginal distension, 381
uterine scar rupture, cesarean section, previous cesarean section, trial of labor, Tanzania, 211
uterus, anomalies, renal, skeletal, ectopic, infertility, 281

vaginal distension, vagino-uterine reflex, uterine myoelectrical activity, 381
vagino-uterine reflex, vaginal distension, uterine myoelectrical activity, 381
variation, PP14, endometrial protein, endometrium, 257
vulval warts, condyloma acuminata, 347
